

World Latitude and Longitude Activity

1. Draw a line along the equator (0 degrees latitude).
2. Draw a line along the Prime Meridian (0 degrees longitude).
3. In which ocean is the location 10 degrees S latitude, 75 degrees E longitude? Mark it on the map with an "X".
4. In which ocean is the location 30 degrees N latitude, 60 degrees W longitude located? Mark it on the map with a "Y".
5. Using the coordinates below, find the cities on your map. Mark them with a dot and write the number next to it. Finally, write the name of the city next to the coordinates in the table below:

Coordinates:	City:
1. 34°S, 151°E	
2. 34°N, 118°W	
3. 19°N, 72°E	
4. 1°S, 37°E	
5. 22°N, 114°E	
6. 40°N, 74°W	
7. 23°S, 43°W	
8. 55°N, 37°E	
9. 40°N, 116°E	
10. 12°S, 77°W	
11. 35°N, 139°E	
12. 30°N, 31°E	
13. 40°N, 3°W	
14. 34°S, 18°E	
15. 33°N, 84°W	
16. 6°N, 106°E	
17. 47°N, 122°W	
18. 43°N, 79°W	
19. 51°N, 0°	
20. 19°N, 99°W
